

Autostadt in Wolfsburg

Discover the world of mobility

Time travel from the past to the future of mobility, a big family area and unusual exhibits: You'll encounter one adventure after another in Wolfsburg's Autostadt.

In addition to the ZeitHaus car museum, this automotive theme park offers interactive exhibits, educational activities for all age groups, a diverse programme of events and cultural activities, and a variety of cuisine spread over more than 28 hectares of parks and lagoons. In the park's centre, the Volkswagen Group has a dedicated pavilion for each of its makes.
